

ALL ALBURY CENSUS 1939

[All Albury census 1939](#)

Trevor Brook, October 2018

[Albury History Society](#)

65,000 enumerators collected data on 29th September 1939.

Pages from various volumes covering parts of Albury Parish have been collected together.

This searchable index is in page order and notes page numbers in [All Albury census 1939](#) where a property appears.

Some properties occur more than once with additional listings at the end of each volume.

Many houses have changed their names while many had no name or number and are identified only by their location and schedule number. Present day property naming is on the [Surrey Interactive Map](#).

National Archives state that images have been redacted to protect the privacy of those still alive.
